Cost effective HD monitoring for everyday applications

With amazing viewing angles of 176°X & 176°Y this high definition LCD produces CRT-like images via the precision scaler which maps all common HD standards to the 1280 x 768 high contrast 450 cd/m² LCD display. 17HD1 supports HD/SDI and CVBS, with automatic switching between HD and SDI. Aspect ratio switching, Over/Normal scanning, backlight & Colour Temp adjustments are all available from the Menu. Only 6 U high, 17HD1 tilts for long term viewing comfort, whilst the 70mm deep case is cooled by two whisper quiet fans. 17HD1 may be specified with either the PAG-lok or V-mount battery plate option; expect 2+ hours service from 100WH battery. Tally lamp interface is standard. VESA mount option.

Outline Specification

- * 6U rack envelope, 5.5KGm, only 70mm deep.
- * 16:9, 15:9 and 4:3 Aspect ratios.
- * Covers all popular HD formats, SDI & CVBS.
