Compact LCD

Now you see it Now you don't!
Folding acoustic reflector

16 Ch histogram + TV Monitor, De-embed & Audio Mon bal OP

Compact LCD, your solution for compact & flexible HD/SD Audio Monitoring which may be used free-standing, or mounted in 1/2 rack unit. Features instant selection between histogram metering or video input signal. Menu select "16 Ch Bar" mode or "4 Ch" Bar burnt into picture" display, and PPM_(x3) or VU graticule scaling.

Compact QUAD provides 8+8W stereo LS monitoring when free standing, quite surprising for equipment this size. Angled 'acoustic reflectors' direct sound to the Listeners; folding flat on the case for shipping and storage, a really neat feature much appreciated by those on 'Location Build-ups'. When rack mounted in Frame, the front speaker provides an 8W mono-mix, with independent L/R muting.

Compact LCD's rear panel provides 4 Ch balanced XLR OPs of selected Group, & a balanced stereo OP of the volume control is provided for 'mission critical' external monitoring requirements. Two parallel and independent fully equalised+reclocked HD/SD loop-outs are provided for utility use elsewhere.

Outline Specification

- * Histogram & TV mode.
- * Selected Group 4CH Bal OP.
- * PPM, Nordic, Digital, VU scale.
- * Hinged acoustic reflectors
- * Free-stand or Rackmount,
- * Only 3U High, 270 mm deep.
- * '1/2 width WFM' compatible.
- * 8W Stereo LS amplifier
- * HP OP, with LS muting.
- * HD/SD IP, 2x LOOP-OUT.
- * Slip on 'sleeve' housing
- * Buffered Volume Control OP
- * All OP on XLR3 connectors
- * 10W 110~240V ac, IEC 320
